

Steam ugdymo populiarinimas ir įtraukimas, kuriant inovacijų kultūrą mokykloje

Erasmus+ programa KA101 "Asmenų mobilumas mokymosi tikslais"
2020-12-01 / 2022-11-30

Kroatijos ir Portugalijos mokyklų dalyvių apklausa

- 100 proc. mano, kad mobilumo veiklos buvo naudingos (užtikrina tarptautiškumo plėtrą, tobulinamas ugdymo procesas, pasidalinama patirtimi).
- 100 proc. apklaustųjų norėtų tęsti bendradarbiavimą Erasmus+ projektuose su mūsų gimnazija.

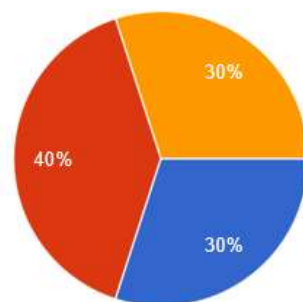

For the partners from Croatia and Portugal

10 atsakymų

1. What is Your experience in Erasmus+ projects?

Was the cooperation in the activities of this project (job shadowing, training visit, sharing experience of schools, lesson observation, discussing future cooperation) useful for you and your school? Why or what was the most important?

10 atsakymų

Yes, it was very important because for our school it is always very important to receive and share knowledge with teachers from other schools in Europe. And receiving the two teachers at JobShadowing was very enriching.

exchange of experience

It was useful for my school. Sharing experiences as well.

Yes, it was. The most important part of this project was exchanging experience.

.

It was useful because we exchanged experience, it was nice to travel to your country and see how you manage teaching and school organization as well as to have you as our guests.

Yes, I find it important because we had opportunity to work with out colleagues from Lithuania, learn from each other and exchange examples of good teaching practice from our word and professional enironments

Lesson observation and discussing future cooperation

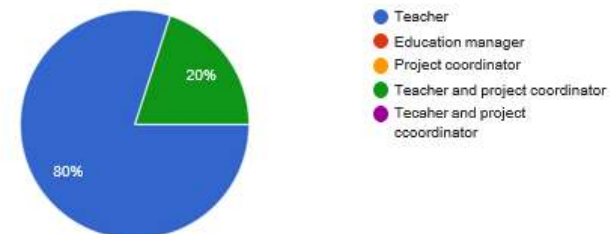

sharing experience of schools

Lesson observation is important because it gives us teachers an outsiders look on the way we teach, on the way our students behave in classroom, on how we interact with them, what works better in our lessons and what doesn't work so well.
